

Trade waste pre-treatment

Grease traps (1,500 litres)

5 August 2013

This fact sheet lists 1,500 L grease traps that comply with Sydney Water's requirements for treating your trade wastewater.

- You must arrange for a licensed plumber to install pre-treatment products. Installation must meet Australian Standards, Workplace Health and Safety standards and Sydney Water guidelines. Pre-treatment equipment installed in Sydney Water's area of operations that does not meet these standards and guidelines, must be removed at the cost of the installer.
- Pre-treatment equipment installed in Sydney Water's area of operations must have clearance above the top of the installed equipment, at least equal to the depth of the deepest part of the pre-treatment equipment. This ensures safe and easy access to clean and inspect the equipment.
- Only use lids or covers specified by the manufacturer for the installation. The lids or covers must meet current Australian Standards, Workplace Health and Safety standards and Sydney Water guidelines.
- Stands, walkways and steps must meet Australian Standards and Workplace Health and Safety guidelines.

Manufacturer and contact details	Supplier's item and capacity	Above or in-ground installation	Material
Aglass Pty Ltd 9542 6511	AGL1500	Either	Glass reinforced plastic (fibreglass)
AJM Environmental Services Pty Ltd 9542 2366	GA1500SS	Above ground	Stainless steel
BCP Precast 1800 804 134	GAP-01500	Either	Glass reinforced concrete (must be epoxy coated internally)
Eclipse Environmental 9721 3071	GA1000S – 1,000 L GA1500S	Above ground	Stainless steel
	GA1500F	Either	Glass reinforced plastic (fibreglass)
FRP Technologies P/L 9673 5536	FA-1.5 GABS	Above ground	Glass reinforced plastic (fibreglass)

Manufacturer and contact details	Supplier's item and capacity	Above or in-ground installation	Material
FRP Technologies P/L 9673 5536	FI-1.5 GABS	In-ground	Glass reinforced plastic (fibreglass)
Halgan Pty Ltd 9972 1355	Modular grease trap with SCD 1,500 L	Either	Polyethylene Polypropylene
	Modular grease trap S Series MGTS 1,500 L	Either	Polyethylene Polypropylene
Industrial Separation Systems 9524 6654	VGS 1,500 L/h grease separator with mono pump CP25 Note: products for installation in McDonald's Restaurants only	Above ground	Stainless steel
JB Collitt Pty Ltd 97738816	JBC2000 SS	Above ground	Stainless steel
John Lynch Engineering Pty Ltd 0412 649 860	1,500 L	Above ground self supporting	Stainless steel
Mascot Engineering 1300 885 295	GA-150	Either	Glass reinforced concrete (must be epoxy coated internally)
SEPA Pty Ltd 9542 2434	BS 15	Above ground	Stainless steel
Stainless Steel Metal Craft 4735 5666	GT 1.5	Above ground self supporting	Stainless steel
CV Plastics P/L (03) 54428728	CV1500L	Either	PVC sheet
