Introduction

Each financial year, Wagga Wagga City Council makes funds available under the Annual Grants Program for local not-for-profit cultural, recreation and community groups and in some categories for individuals and local business. The aim of the program is to support a wide range of activities that support our community.

Council's Financial Assistance Policy 078 states the preferred method for assessing requests from the community for financial assistance is through the Annual Grants Program. This ensures a fair and equitable process for the assessment and distribution of funding against a set of general and specific criteria for each grant category.

Community Strategic Plan

The Annual Grants Program has been developed to align with the Community Strategic Plan 2040. This document was prepared in consultation with the community and identifies the long-term vision for Wagga Wagga Local Government Area. Applicants are required to address category specific objectives relating the project they are applying for through the Annual Grants Program.
