## **Business Continuity Policy**

Reference number: POL 081

Approval date: 17 October 2022

Policy owner: Manager Governance & Risk

Next adoption date: September 2025

Wagga Wagga City Council adopts Business Continuity Management as a core obligation of good governance and utilises the methodology specified in ISO 22301:2019 Business Continuity Management Systems (BCMS).

Council recognises that Business Continuity is an integral part of good management practice and fully supports Business Continuity Management as an important element in its Risk Management Framework.

The purpose of this Policy is to clearly document Council's commitment to implementing, overseeing and continuously improving Business Continuity Management (BCM), recognising the importance of business resilience and long term performance.

This Policy protects the interests of Council and stakeholders by employing a rigorous process to develop a Business Continuity Management System (BCMS) for the effective management and mitigation of potential disruption risks to Council's identified Critical Business Functions and to identify resources and capabilities required to ensure the uninterrupted availability of all key resources necessary to support Council's identified Critical Business Functions during an outage.

## **Purpose**

The Wagga Wagga City Council aims to:

- Maintain the highest possible integrity and continuity for services provided by the Council,
- Safeguard the Council's assets, including people, property and financial resources.
- Plan for the uninterrupted availability of resources so that Council can continue to perform the Critical Business Functions that support its critical objectives,
- Ensure that Council can appropriately deal with any disruption and restore operations as soon as practicable,
- Demonstrate responsible Business Continuity Management processes that align with applicable Australian Standards, accepted best practice standards and methods, and
- Support the accurate and timely provision of information to staff, the community, business partners, stakeholders and other relevant levels of Government during an outage event.

## Scope

This policy applies to all areas of Council's operations.

## **Policy Provisions**

Council is committed to investing time, capital, tools and techniques to support BCM as a fully embedded business and risk management process.

#### Council will:

- manage Business Continuity based upon ISO 22301:2019 Business Continuity Management Systems (BCMS) and other relevant guidelines and standards;
- maintain a BCP for key business processes;
- update its Business Continuity Plan, Emergency Response Plans and Critical Business Function Sub-plans at least annually;
- ensure that relevant and appropriate testing of plans is undertaken at least annually;
- ensure the accurate and timely provision of information, as it concerns an outage, to staff, the community, business partners, stakeholders and other relevant levels of Government;
- make informed judgements concerning the level of management and costs involved in achieving effective outcomes.

Council recognises the following benefits of Business Continuity Management:

- provides for the continued delivery of critical services to the community;
- effective response to an Outage minimises damage to the organisation;
- enhances Council's ability to proactively identify the consequences of an outage;
- effective management of uninsurable risks, and compliance with insurance policies;
- an opportunity to better understand the organisation sometimes thereby revealing opportunities to improve efficiency, governance and treatment of other risks;
- remain compliant with relevant legislative and other obligations;
- increases the awareness of the potential for disruption;
- development of general skills as well as specific capacities which facilitate operating in a non-standard mode;
- allows Council to maintain a strong focus on critical functions thereby achieving critical objectives during an outage;
- building resilience that facilitates managing and recovering from an utage event;
- demonstrates to internal and external stakeholders, their dependability and good governance.

#### **Business continuity relationships**

This Policy will be implemented through Council's Business Continuity Plan, Emergency Response Plans, Disaster Recovery Plans and Critical Business Function Sub-plans as shown below:

# Business Continuity Relationships

## **Business Continuity Policy** The Business Continuity Policy sets out Council's commitment to business continuity and the principles upon which it will manage Outage events **Risk Management Framework** The Risk Management Framework establishes Council's risk context, appetite, criteria and structure. It outlines roles and responsibilities and performance measurement, including **Business Continuity Management Emergency Response Plans** Document of the emergency arrangements for a Council facility, consisting of preparedness, prevention and response activities and including agreed emergency roles, responsibilities, strategies, systems and arrangements **Business Continuity Plan** Documented procedures and information that is developed, compiled and maintained to guide the organisation to respond, recover, resume and restore to a pre-defined level of operation following an Outage event

## Information Services Disaster Recovery Plans

The mechanism by which technology systems are recovered in line with the needs of Council.

#### **Critical Business Function Sub-plans**

Specific plans, procedures and documents for critical business processes that will enable Critical Business Functions to continue during a business Outage event.
