Comments:

The original program that was developed requires complete revision as a result of the extensive flooding and higher than average rainfall.

Explanation / Remedial Action:

Extensive failures across the entire seal road network are being assessed and a new program developed as a result. This will require the use of the majority of council's grader crews and this will impact on the maintenance and repair of the unsealed road network.

Comments:

The 2016/17 gravel resheet program is being revised as a result of extensive flooding experienced across the local government area which has caused significant damage to the unsealed road network.

Explanation / Remedial Action:

Staff have been assigned to the task of assessing the unsealed network . It is 1150 kms long and it will be done as quickly as possible

Comments:

The repairs to the sealed network have priority and maintenance on our unsealed network will be restricted to one and a half grader crews and as a result our response times to customer requests may be longer then normal.

Explanation / Remedial Action:

Major safety issues are being repaired as quickly as possible, but repairs to the sealed network have priority and staff have been allocated to this task at the expense of the unsealed network.

Comments:

Work on these two projects was stopped during the recent flooding and extended wet weather . When a prolonged dry period is available, work will recommence and these projects finished

Explanation / Remedial Action:

With the extensive damage to the road network from a wet winter and flooding, Council resources will be required across the entire network. As a result, only one grader crew will be available to complete these two projects and there amy be a delay in finalising them.
