GATHERING PEOPLE

CROSS-CULTURAL TEXTILE INSTALLATION

4PM TO 8PM

Gathering is a textile technique for adding ease and comfort to our clothes. It is also an old Irish proverb that speaks of the care and comfort to be found in the shelter and spaces of each other's company. Sometimes it also refers to gathering our thoughts to find a solution to a puzzle. Drop-in style community workshops were led by artists, Kerrie Rudd and Julie Montgarrett and explored the many ways that gathering matters. How reclaimed cloth can be re-made in a collaborative design process, to create a welcoming, gathering space for everyone to share.

WINGED WANDERERS WORKSHOP

PRESENTED BY TOM BUCKLAND

4PM TO 7PM

Who doesn't want to sing and fly around like a bird?

Pull up a perch and create a recycled DIY cardboard headpiece, beak or pair of wings and transform yourself into a migratory bird of your own creation. Ideal for fledglings and their parents.
