**FLOOD DEPTH AND CONTOURS
1% AEP DESIGN FLOOD
CITY**

NOTE:

- 1. Inundation patterns and/or peak flood levels shown for design events are based on best available estimates of local overland flow. That is flow from local rainfall events not Murrumbidgee River (Riverine) flooding.
- 2. The flood extents shown on this map are approximate only and are intended to be indicative. The map must not be used in isolation to determine whether a property is affected by flooding. This can be confirmed by comparing estimated design flood level(s) for the property with detailed ground survey undertaken by a registered surveyor.
